

Consultant Physician in Respiratory Medicine for a unique and modern hospital in beautiful Denmark

Nykøbing Falster Hospital offers a high level of professionalism and significant responsibility. It's situated in a beautiful natural environment in the south of Denmark.

We offer plenty — much more than you might expect. If you are our new Consultant Physician in Respiratory Medicine, we have a great package waiting for you.

A world-class health care system: The Danish healthcare system is based on the principles of free and equal access to healthcare for all citizens and offers high-quality services, the majority of which are financed by general taxes.

A great working environment: We consider a good working environment and a high level of well-being a prerequisite for creating good patient pathways. We work actively to promote the development of a “hospital without borders” when it comes to cooperation, both internally across specialisations and departments and externally with other hospitals, general practitioners, and municipalities. You can therefore expect to have many competent and passionate colleagues who are keen to collaborate and work together. In addition, we work closely with Zealand University Hospital and have great ambitions to expand and strengthen this collaboration in the field of respiratory medicine.

Flat structure with significant responsibility: We take pride in supporting those who desire to be at the forefront. If you have a good idea, you will find that there is a framework with a latitude of action to pursue it and put it into practice. Nor are we afraid to undo or reverse a wrong decision and we limit our bureaucracy to the bare minimum. You will have the opportunity to help make a professional mark on the ward and be one of the hospital's “professional lighthouses”.

Excellent personal and professional development opportunities: At Nykøbing Falster Hospital, we have decided to be specialists in talent development. This means that you get an individual skills development plan to ensure that you enhance your expertise and that we together deliver better patient care. The Department of Internal Medicine is no exception and we prioritize your development very highly.

Scenic surroundings and a nice provincial town: You can live wherever you like, anywhere in Denmark or even in a neighbouring country. However, keep in mind that we can offer plenty of beautiful and affordable housing by the water, and we would love it if you chose to live in the vicinity of the hospital. Nykøbing Falster is in the most beautiful surroundings with an abundance of opportunities for water sports and other outdoor experiences, such as Stevns Klint (which is a UNESCO World Heritage Site) and Denmark's best beach, Marielyst Strand.

Both Guldborgsund Municipality and Region Zealand are ready to provide help and advice for newcomers, and there are excellent nurseries and pre-schools, great private and public schools and a nice old town of a good size where you will find most everything you might need.

A good work-life balance: As a consultant you will work 37 hours per week. With the right qualifications, degrees, a limited amount of extra-work, nightshifts, and work on sun- and holidays, you'll be able to earn more than the needed 9.100 € (pension included) per month that allows you to a guaranteed tax-scheme on 32,84%. The tax-scheme is targeted high-paid specialists and scientists moving to Denmark. All in all, a very attractive pay packet.

A bit about yourself: The main requirement is that you are a trained physician in respiratory medicine and motivated for working at Nykøbing Falster Hospital. Professionally, you are

motivated by a lot of responsibility and task diversity. In addition, you have strong collaboration skills and contribute to the team with your good mood and high commitment.

You can read more about the position and the recruitment process in the in-depth memo and more about working in Region Zealand In the files below. For more information, please contact Line Møgelvang at Mercuri Urval on +45 4167 8243. We recruit on an ongoing basis but please apply no later than Sunday 1st of July 2021.
